

Hitachi FX-Duo Interactive Whiteboard

# Dual inspiration, unlimited potential

Introducing the interactive whiteboard that's so versatile you can use either an electronic pen or finger.

The new DuoBoard also offers a hard, durable screen – not a membrane – that's hard to damage and that can be used by multiple users. It works as a dry-wipe board, too. In fact, the DuoBoard combines all the best features of all previous whiteboards, without limitations.

Until now, your interactive whiteboard came with a choice: electronic pen-driven or stylus/finger-driven.

Now you don't have to choose. The Hitachi FX-DuoBoard comes with a hard, damage-resistant screen. It responds to pen or finger. Its low-reflection surface is kind on the eyes. And it caters for multiple users at once. So, it's great for educational games.

#### Key Benefits

- Constant learning – robust surface means no downtime
- Flexible learning – can use finger or electronic pen
- Interactive group work – two or more can use board at once
- Control - The electronic pen enables the teacher to take control over group sessions at the board at any time
- Kind to your eyes – low-reflection surface coating

Redefining the interactive whiteboard
